

Real Estate finalists

The **Studio Franzina + Partners Architettura** is a finalist of the **MIPIM Award** in the category **Best Future Project**, in the context of the world's most important Real Estate show, together with **Ateliers Jean Nouvel**, **MDW Architectur** and the studio **DTACC**. One of the projects of Studio Franzina is **Air Floating**, a concept for villas and suites based on the desire to combine two factors: the ideal settlement model (the single-family house) and the scarcity of territory (a finite resource).
